To Whom It May Concern:

Since 1984, Leon County Schools and the Tallahassee Area Chamber of Commerce participate in a joint partnership to encourage and facilitate cooperative relationships between public schools and businesses, agencies, and organizations in the community. By forming this relationship, businesses agree to work together with the school for the benefit of education and the community-at-large by enriching the curriculum, ensuring the quality of education necessary for economic growth, strengthening the future workforce, and/or increasing support for and confidence in public education throughout the community.

The Leon High School Girls! Soccer Program fundraising drive for the 2019-2020 school year is currently underway. Public schools athletic booster clubs depend solely on donations by parents and community partners and are not funded by the school's normal operating budget. Funding is needed to purchase athletic equipment and uniforms, team travel expenses, and scholarships for worthy student athletes who are prevented from playing due to family financial constraints. Participation in organized sports at the high school level has many benefits such as the development of leadership and teamwork skills; reduction in the risk of obesity; promotion of goal-setting, strategic thinking, self-esteem; and the pursuit of excellence.
